FOR IMMEDIATE RELEASE

Noise Solutions Appoints Vice President of Engineering and Director of Operations

CALGARY, ALBERTA – July 30, 2014 – Noise Solutions, the leading North American provider of engineered industrial noise suppression equipment for the energy sector announces the appointment of Vince Ginter as Vice President, Engineering and John Yenges as Director of Operations.

A respected Professional Engineer, Vince Ginter joined Noise Solutions earlier this month bringing 11 years of proficiency in a broad range of activities related to Research and Development, Product Development, Manufacturing, Business Development and Consulting. Mr. Ginter’s expertise ranges from hydraulic turbines, control systems and electric motors to polystyrene manufacturing pilots, and down-hole tool and equipment design for the oil and gas industry.

In his Vice President, Engineering role, Mr. Ginter will be focused on leading the engineering efforts of Noise Solutions in North America and globally. “I am very excited to be part of the Noise Solutions Team,” says Mr. Ginter. “With such a competitive market and the increasing scale of customer orders it will be important to continue our rapid expansion while maintaining our clear focus on product quality.”

As Noise Solutions continues to build on its North American strategy, John Yenges has been appointed Director of North American Operations. A seasoned Project and Construction executive, his vast portfolio ranges from serving as a Combat Engineer within the United States Marine Corps; to managing construction projects for residential, retail, office, hospitality and laboratory; and overseeing new and large commercial and industrial site developments.

In his Director of Operations role, Mr. Yenges will be focused on streamlining operations between the US and Canada, while boosting production and increasing quality at the company’s plant in Sharon, Pennsylvania. “I couldn’t be more thrilled to be part of this extraordinary operation,” says Mr. Yenges. “The company has built a solid foundation in the marketplace and I am honored to be able to use my experience to grow and refine our products and services, as Noise Solutions enters a global leadership position.”

“We are extremely pleased to welcome Vince and John to our executive team. They are both innovators who bring significant experience and knowledge to the company,” says Scott MacDonald, Noise Solutions President and CEO. “Their combined expertise will enhance our ability to expand the company’s product capabilities and offerings, while continuing to raise the bar to meet our customers’ requirements.”
About Noise Solutions
Noise Solutions is a leading provider of engineered industrial noise suppression for oil and gas, power, mining and aerospace industries. With full-service operations in Canada and the United States, the company’s footprint of more than 80,000 square feet enables the production of the most effective and robust equipment, including acoustic and thermal buildings and enclosures, cooler fan silencers engine exhaust and engine emissions control and exhaust silencers.
